

Welcome Reagan!

New Pool Manager at Bastrop State Park Pool

Howdy, my name is Reagan Faught and I have the privilege of serving Bastrop State Park as the new Resource Specialist/Pool Manager. It is an honor to be a member of such a great team of park staff and volunteers who are dedicated to the mission of Texas Parks and Wildlife. Having a keen interest in our State's natural resources and a passion for numerous outdoor activities, is what led me to pursue a career with TPWD. My home town is San Saba, TX and after high school I moved to College Station where I attended Texas A&M University. I later graduated with a Bachelors degree in Agricultural Leadership and Development, as well as a Masters degree in Agricultural Leadership, Education and Communications. Before coming to Bastrop with my wife Stephanie and five year old daughter Emma, I held a park ranger position at Lake Whitney State Park. I am looking forward to meeting new people and becoming continually more involved in activities associated with the park.

Left: The restored 1935 Swimming Pool is complete and you need to make time to see it! They did a great job.
